Training: AWS
AWS Skill Builder Team Subscription + AWS Training Days Bundle

TRAINING GOALS:

AWS Skill Builder Team Subscription

Skill Builder Team subscription offers organizations an online learning center filled with a set of diverse training experiences to teach AWS Cloud skills. Curated learning plans, 1000+ lab experiences with no added fees, role-based and gamified learning tools, digital instructor-led training, and AWS Certification exam prep materials provide teams with the training they need to develop and deepen their cloud skills. Organizations can drive and track training adoption across their workforce to ensure development of the relevant skills they need to achieve desired business and growth outcomes.

With a Skill Builder Team subscription, you can build your cloud skills at scale. Expand the reach of AWS education throughout your teams in a scalable, predictable and cost-effective way through Skill Builder's digital learning resources. You can:

- Enable your teams to learn by doing with **1,000+ lab experiences** providing hands-on training in an AWS Management Console to experiment and build in a non-production environment, without risk of added fees. They will be able to:
  - Build practical skills with hands-on practice in 200+ guided, self-paced **AWS Builder Labs** that include interactive exercises with step-by-step instructions.
  - Develop role expertise with **AWS Cloud Quest** in guided, immersive game simulations. Build AWS solutions and skills tackling use cases common to your industry with **AWS Industry Quest**. Quests present real-world scenarios that accelerates the development of problem-solving cloud skills, and include game-based elements that encourage learners to keep learning. Accelerate skills development by hosting **AWS Cloud Quest Tournaments**, where players develop practical cloud skills while competing in a virtual match.
  - Test, verify, practice and reinforce skills with **AWS Jam Journey** open-ended challenges. **AWS Jam events** offers your teams a new way to develop expertise and work together, collaborating to solve open-ended challenges and fostering shared learning, creativity, and trust.
- Equip your teams with on-demand, classroom-based training in a digital format with **AWS Digital Classroom**. Accelerate deep understanding of focused topic areas, with immediate access to expert instructor-led videos, hands-on labs, and course assessments.
- Hone employees' AWS architecture and solution design knowledge in a fun, virtual card game with **AWS Card Clash**.
- Provide employees with **AWS Certification exam focused preparation** to gain confidence going into exam day, with enhanced exam prep courses including practice materials, AWS

Compendium Centrum Edukacyjne Spółka z o.o.

USD: PL 52 1600 1462 1853 6451 3000 0007

Builder Labs, and AWS Certification Official Practice Exams that mirror the style, rigor and scoring of the exam. Additional game-based exam prep is available with **AWS Escape Room**: Exam Prep for AWS Certified Cloud Practitioner.

- Ensure the maintenance of team foundational cloud expertise with **AWS Cloud Quest: Recertify Cloud Practitioner** (beta). Guided, game-based training with hands-on learning modules help teams get recertified – no exam required. (This free beta will run from November 21 - May 31, 2024.)
- With Skill Builder Team subscription, drive the cloud skills critical to your organization. An **administrative dashboard** and tools provide visibility into skills progress across your teams. Organizations can drive and track training adoption across their workforce to ensure development of the relevant skills they need to achieve desired business and growth outcomes.

AWS Training Days

Live training days led by authorized AWS instructors (AWS Authorized Instructors (AAIs)) take place in various formats:

- **Instructor-Led Training (ILT)**: These sessions occur in physical training rooms, where AAIs guide learners through AWS concepts and hands-on labs.
- **Virtual Instructor-Led Training (VILT)**: AAIs conduct remote training sessions online, allowing participants to join from anywhere. VILT offers flexibility and convenience.
- **Hybrid Mode (HYBRID)**: This approach combines ILT and VILT. Some learners attend in person, while others participate virtually. It caters to diverse preferences.

AWS live training days also include:

- **Authorized Curriculum**: AAIs use official AWS training materials during these sessions. These materials are carefully curated and authorized by AWS.
- **Hands-On Labs**: Participants engage in practical exercises using AWS services. These labs reinforce theoretical concepts and enhance practical skills.

The live training days that you receive by purchasing **AWS Skill Builder Team Subscription + AWS Training Days Bundle** can be used for any authorized AWS training within a 365 days, exactly during the AWS Skill Builder Team Subscription license period.

For example, the live training days may be used to take such training:

- One-day - Essentials (Get started) courses
- AWS Jam and AWS Jam Bundle
- Architect, Developer, DevOps, Machine Learning courses

Some examples of possible bundles:

Option 1

AWS Skill Builder Team Subscription – 5 licenses for 5 students

AWS Training Days – 3 days training for 5 students

- Architecting on AWS

Option 2

AWS Skill Builder Team Subscription – 5 licenses for 5 students

AWS Training Days – 6 days training for 5 students

- Architecting on AWS
- Security Engineering on AWS

Option 3

AWS Skill Builder Team Subscription – 10 licenses for 10 students

AWS Training Days – 8 days training for 10 students

- Architecting on AWS with AWS Jam
- Security Engineering on AWS with AWS Jam

+ any AWS authorized training (ILT/VILT/HYBRID), completed with purchased live training days

All available courses >>>> https://www.compendium.pl/trainings/aws/

The live training days can also delivered as a Blended Learning:

Compendium Centrum Edukacyjne Spółka z o.o.
ul. Tatarska 5, 30-103 Kraków, tel.: (12) 298 47 77
ul. Postępu 18B, 02-676 Warszawa, tel.: (22) 417 41 70

BNP Paribas Bank Polska S.A.
EUR: PL 79 1600 1462 1853 6451 3000 0006
USD: PL 52 1600 1462 1853 6451 3000 0007

- half-day training sessions
- one-day training once a week
- other options

REQUIREMENTS:

We recommend that attendees of this course have:

- IT experience
- Basic knowledge of common data center architectures and components (servers, networking, databases, applications, and so on)
- No prior cloud computing or AWS experience required

Difficulty level

CERTIFICATE:

The participants will obtain certificates signed by AWS (course completion).
