

Training: Red Hat  
DO092 Developing Cloud-Native Applications with Microservices  
Architectures

Please contact us by phone using the form below in order to perform calculations as training

## TRAINING GOALS:

**Developing Cloud-Native Applications with Microservices Architectures (DO092)** is a series of on-demand, online videos that will teach you how to combine different frameworks and tools into a microservices architecture that fits your organizational needs.

## CONSPECT:

- Video 1: Deploying Cloud-Native Applications with Microservices Architectures Introduction
- Video 2: Microservices Overview: What and Why?
- Video 3: API: Building and Deploying a Microservice (and demonstration)
- Video 4: Discovery and Invocation (and demonstration)
- Video 5: Microservices Patterns (and demonstration)
- Video 6: Circuit Breakers (and demonstration)
- Video 7: Pipelines (and demonstration)
- Video 8: Authentication (and demonstration)
- Video 9: Logging, Monitoring, and Tracing (and demonstration)
- Video 10: Blue/Green Deployment (and demonstration)
- Video 11: Canary Deployment (and demonstration)
- Video 12: Moving from Monolith to Microservices

## REQUIREMENTS:

Understanding of software and IT system architecture

## Difficulty level

## ADDITIONAL INFORMATION:

Video classroom.
