TRAINING GOALS:

This three day, instructor-led IT Governance Foundation Course provides an overview of the main concepts of IT Governance according to COBIT® 5, ISACA® 's latest governance framework, and how they can be applied. COBIT® 5 provides a comprehensive framework that assists enterprises create optimal value from IT by maintaining a balance between realising benefits and optimizing risk levels and resource use. COBIT® 5 enables IT to be governed and managed in a holistic manner for the entire enterprise, taking in the full end-to-end business and IT functional areas of responsibility, considering the IT-related interests of internal and external stakeholders.

This course and the **COBIT® 5 Foundation certificate** are mandatory for additional COBIT® 5 training, including the COBIT® 5 Implementation Course and Assessor Program Training.

At the conclusion of the course attendees will understand:

- The major drivers for the development of a Framework
- The business benefits of using COBIT® 5
- The COBIT® 5 Product Architecture.
- The IT management issues and challenges that affect enterprises.
- The 5 Key Principles of COBIT® 5 for the governance and management of Enterprise IT
- How COBIT® 5 enables IT to be governed and managed in a holistic manner for the entire enterprise.
- The key concepts in a Process Capability Assessment and the key attributes of the COBIT® 5 PAM (Process Assessment Model)
- How the COBIT® 5 processes and the Process Reference Model (PRM) help guide the creation of the 5 Principles and the 7 Governance and Management Enablers.

The **COBIT® 5 Foundation certificate** is to confirm that a candidate has sufficient knowledge and understanding of the COBIT® 5 guidance to:

- Be able to understand the enterprise Governance and Management of Enterprise IT
- Create awareness with their business executives and senior IT Management
- Assess the current state of their Enterprise IT with the objective of scoping what aspects of COBIT® 5 would be appropriate to implement.
