**LOCATIONS**

Krakow - 5 Tatarska Street, II floor, hours: 9:00 am - 4:00 pm  
Warsaw - 17 Bielska Street, hours: 9:00 am - 4:00 pm

**TRAINING GOALS:**

The maturity of PHP and its steady growth and dominance in web, enterprise applications, mobile and cloud application development drives the demand for highly-skilled PHP developers. The Zend Framework 2 Certified Architect is recognized by employers as an industry standard for ensuring the highest level of PHP skill and experience. This certification is created and monitored by an independent advisory board whose members contribute heavily to PHP, Zend Framework and leading open source projects. The Test Prep course is designed to prepare experienced developers who design and build PHP applications using ZF2 for passing the certification exam and achieving the status of Zend Framework 2 Certified Architect (ZFCA).

What will I learn:

- You will be able to prepare for the exam with the help and guidance of the live instructor and identify areas requiring further study. You will be guided through a fast pace, intense review of all major topics within the 13 certification areas of the ZF2 Certified Architect exam. You will complete several mock exams during class with the support and direction of an experienced instructor to mimic the full exam experience and prepare you in the best way to pass the certification exam.

What will I be able to achieve:

- Know what to expect during the Zend Framework 2 Certification testing process and the exam itself
- Learn strategies for answering the exam questions
- Learn best practices for making best use of available exam time
- Review the 13 major topic areas of the certification exam

- Take numerous review quizzes in the style of the exam questions
- Be more prepared to pass the exam and achieve the status of Zend Framework Certified Architect (ZFCA).

#### Audience:

- This course is designed for experienced Zend Framework 2 developers (advanced level who wish to prepare for their certification exams in the best way. Participants will be guided through a quick, intense review of the 13 exam areas. This is a Test Preparation course it does not teach the basics of ZF2 or PHP.

#### CONSPECT:

- Introduction to the Certification
  - About the Certification and what to expect
- Zend Framework 2 Certification focus areas
  - Service Manager
  - MVC
  - Module Manager
  - Event Manager
  - Forms
  - Security
  - Filtering & Validation
  - Authentication & Authorization
  - Database
  - Utility
  - Web Services
  - Performance
  - Internationalization

#### REQUIREMENTS:

At least intermediate-level knowledge of the thirteen topic areas of the certification exam. It is highly recommended to complete the Zend Framework Fundamentals and Zend Framework Advanced Concepts classes or have equivalent hands on development experience.

#### Difficulty level
