Training: AWS
AWS Discovery Day - Machine Learning Basics

TRAINING GOALS:

In this training event, you will get an overview of the concepts, terminology, and processes of the exciting field of Machine Learning. Learn how you can unlock new insights and value for your business with real-world examples, whilst also grasping the three categories of machine learning algorithms. You'll also learn about key concepts, terminology, and the phases of a machine learning pipeline.

- **Level**: Fundamental
- **Duration**: 1.5 hours

Learning objectives

In this session, you will learn to:

- Explain machine learning
- Describe the three categories of machine learning algorithms
- Explain deep learning
- Describe the machine learning pipeline phases

Intended audience

This event is intended for:

- Developers
- Solution Architects
- Data Engineers
- Anyone who wants to learn about the machine learning pipeline
