Training: SCRUMstudy
Scrum Master Certified (SMC)

TRAINING GOALS:

Scrum Master Certified (**SMC**™) professionals have a practical, working knowledge of Scrum that equips them to implement and work in a Scrum environment. The purpose of the course and exam is to confirm the applicants have achieved sufficient understanding of how to apply Scrum in the projects and to tailor Scrum in a particular scenario.

SMC™ professionals are facilitators who ensure that the Scrum Team is provided with an environment conducive to completing the project successfully. The Scrum Master guides, facilitates, and teaches Scrum practices to everyone involved in the project; clears impediments for the team; and, ensures that Scrum processes are being followed.

Successful candidates will be awarded the **Scrum Master Certified** (**SMC**™) **certification** by SCRUMstudy after passing the certification exam.

Audience Profile

This course and certification exam is appropriate for anyone who is interested in working as a Scrum Master or for someone who is already a Scrum master in his organization. Scrum Master is an important role in any Scrum team and need not be a technology expert to be effective. Moreover, although Scrum is popular in the IT industry, it can be used effectively across different industries. The SBOK Guide, on which the SMC course is based on, can be used as an effective guide for implementation.

Expected Outcome

The participants will be prepared to take SMC™ certification exam and pass. Also they will be able to apply the concepts in their day to day job.

CONSPECT:

- Agile and Scrum Overview
  - Agile Overview
  - Agile Manifesto
  - Agile Principles
  - Agile Methods
