Training: Extreme Networks
ExtremeCloud™ IQ - Site Engine - Management

TRAINING GOALS:

Students will gain more detailed explanation of centralized network management capabilities within XIQ-SE. This includes not only built-in tools but also customizations available within XIQ-SE. Device firmware management, device configuration management, and device reporting are discussed. Students have these concepts reinforced with a hands-on lab experience working with a pre-configured network.

Course Objectives

Upon completion of this course, students will have gained the working knowledge to:

- Manage device firmware via ExtremeCloud™ IQ – Site Engine
- Create and manage device configuration archives
- Access, generate, and customize reports in ExtremeCloud™ IQ – Site Engine
- Pass the ExtremeCloud™ IQ – Site Engine – Management exam

Audience

This course is designed for individuals responsible for the overall network management using XIQ-SE.

CONSPECT:

- XIQ Integration
- Wireless
- Firmware management
- Archive Management
- Reports

REQUIREMENTS:

You must be certified in ExtremeCloud™ IQ - Site Engine - Installation and Configuration.

Exclusive Networks Deutschland GmbH
Rahel-Hirsch-Straße 10 / 3. Stock, 10557 Berlin
Tel: +49 303251310

The XIQ-SE courses are recommended to be taken in the following order: Installation and Configuration, Management, Advanced Configuration, and Troubleshooting. Students should possess an understanding of network fundamentals, and general network management concepts, as well as network security concepts and technologies. In addition, Extreme Networks recommends the following courses prior to enrolling in the XIQ-SE courses:

- Switching
- Extreme Cloud IQ – Controller

Difficulty level

CERTIFICATE:

Participants who pass the assessment will receive a certificate signed by Extreme Networks - Extreme Certified Associate in ExtremeCloud™ IQ – Site Engine - Management

TRAINER:

Authorized Extreme Networks Trainer.
