Training: Extreme Networks

ExtremeCloud™ IQ - Site Engine - Troubleshooting

TRAINING GOALS:

Students will gain basic troubleshooting understanding and the tools available within ExtremeCloud™ IQ – Site Engine to troubleshoot network outages to common end-user issues. Students have these concepts reinforced with a hands-on lab experience working with a pre-configured network.

Course Objectives

Upon completion of this course, students will have gained the working knowledge to:

- Identify and isolate network faults
- Identify and isolate end-user issues
- Create custom alarms and reports

Audience

This course is designed for individuals responsible for the overall network management using XIQ-SE, Extreme Analytics, Extreme Policy, and Extreme Control.

CONSPECT:

- How to Troubleshoot
- Administration
- Diagnostics
- Device
- End-user
- GitHub
- Alarms and Events
- GTAC Case Preparation
