Training: Extreme Networks
ExtremeCloud™ SD-WAN - Troubleshooting

TRAINING GOALS:

Students will gain troubleshooting understanding and the tools available within ExtremeCloud SD-WAN Orchestrator and ExtremeCloud SD-WAN Appliances (ipes) to troubleshoot ExtremeCloud SD-WAN misconfigurations or outages, and common end-user application issues. Students have these concepts reinforced with a hands-on lab experience.

Course Objectives

Upon completion of this course, students will have gained the working knowledge to:

- Identify and isolate ExtremeCloud™ SD-WAN misconfigurations or faults
- Identify and isolate end-user software application issues

Audience

This course is designed for individuals responsible for the support of ExtremeCloud™ SD-WAN solution, and for conducting a deep analysis of common end-user software application issues using ExtremeCloud™ SD-WAN.

CONSPECT:

- Access to ipes/ Under the Hood
- Scripts, debug commands
- Traffic sniffing
- Connectivity issues
- Crashes, ipes' processes
- Visibility: Synchronization, Correlation
- DWS: Advanced Principles & Troubleshooting
- Control: Advanced Principles (Bandwidth tracking, queuing) & Troubleshooting
- Helpdesk flowcharts
